

Products range

Power, control and green solutions

Bonfiglioli, one name for a large international group.

It was back in 1956 that Clementino Bonfiglioli established in Bologna, Italy, the company that still bears his name. Now, some fifty years later, the same enthusiasm and dedication is driving Bonfiglioli to become the world's top name in power transmission and control solutions. Through directly controlled subsidiaries and production plant around the world, Bonfiglioli designs, manufactures and distributes a complete range of gearmotors, drive systems and planetary gearboxes, and boasts the most integrated offering on the market today.

Now, to emphasise its commitment to health, safety and environmental sustainability, Bonfiglioli is adding the term "green" to the description of its offering.

This commitment can be seen too in the Group's new trademark, made up of three shapes and colours identifying Bonfiglioli's three main business areas - Power, Control & Green Solutions and symbolising a set of values that includes openness and respect for other cultures.

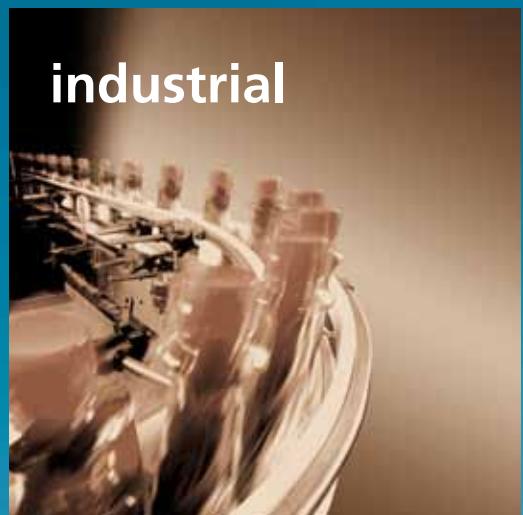

In a market in which excellent product quality alone is no longer sufficient, Bonfiglioli also provides experience, know-how, an extensive sales network, excellent pre-sales and after-sales service and modern communication tools and systems to create high level solutions for industry, mobile machinery and renewable energy.

Bonfiglioli solutions

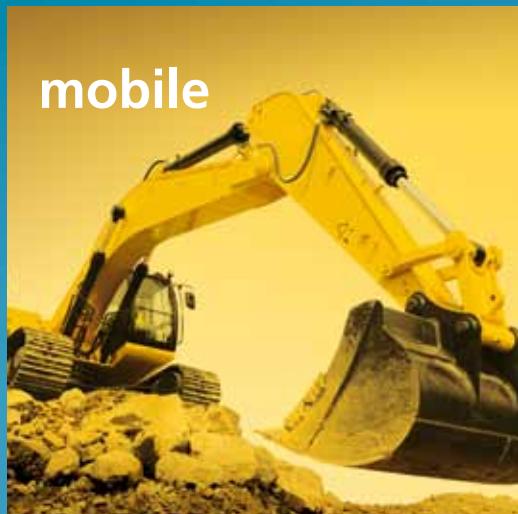

wind

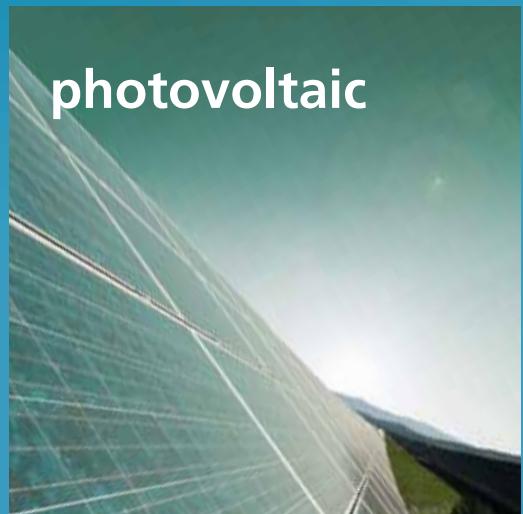

industrial

mobile

photovoltaic

A complete range of innovative products for mobile solutions.

Bonfiglioli Riduttori today is one of the top brands in the power transmission industry.

The company's success is the result of a business strategy that relies on three fundamental factors: know-how, innovation and quality.

The complete range of Bonfiglioli brand gearmotors offers excellent technical characteristics and guarantees the highest performance. Substantial investment and technical expertise have enabled the company to achieve an annual production output of 1600000 units using completely automated processes.

Certification of the company's Quality System by DNV and TÜV is proof of the high quality standards achieved.

With the acquisition of the Vectron brand, Bonfiglioli is now established as leader of the industrial automation sector.

Bonfiglioli Vectron delivers products and services for completely integrated inverter solutions. These solutions complement Bonfiglioli's power transmission and control offering to the industrial sector.

Since 1976, Bonfiglioli Trasmital's know-how in the power transmission industry has focused on special applications offering 100% reliability in the manufacturing of gearmotors for mobile machinery.

This includes the full range of slew and wheel drive applications and gearboxes for wind turbine pitch and yaw drive systems.

Today Bonfiglioli Trasmital stands at the forefront of the industry as a key partner to top manufacturers worldwide.

Bonfiglioli Mobile

Specific solutions for power transmission and motion control.

Product diversification, process automation, and quality have enabled Bonfiglioli to play a leading role in the industry.

Bonfiglioli's policy focuses on integrated solutions, competence and innovative technology as key factors, indispensable to ensure customer satisfaction, while production is aimed at achieving the highest standards.

Bonfiglioli product portfolio aims at meeting the toughest and most sophisticated requirement for Industrial Process and Automation Solution and for Mobile Equipment Solutions.

Bonfiglioli products

Mobile market segment
is covered through the
following Product Line:

Product offer

Planetary drives

10 300 series

Transit mixer drives

12 500 series

Wheel drives

14 600 series

16 600W2/3

Travel drives

18 700C series

Track drive gearmotors

20 700CK series

Slew Drives

22 700T series

24 700TK series

Winch Drives

26 800 series

28 Values

30 Worldwide

300 series

Planetary drives

The powerful solution to all heavy duty drive problems.

The 300 series are compact and powerful. Their planetary drive train makes them the ideal choice for all the severe duty applications where shock loads and impacts are more the rule than the exception. The product configuration is highly versatile, due to several options as far as the mounting, the gear layout, the output shaft and the motor interface. All the features are available for each of the 20 finely spaced frame sizes, spanning over the 1000 - 1100000 Nm torque range. Finding the perfect match to any drive problem is therefore more than a wish, it is something users can safely rely on - always.

Torque Range

1000 ... 1100000 Nm

Transmissible Mechanical Power

up to 1050 kW

Gear Ratios

3.4 ... 5000

Gear Unit Versions

In line

Right angle (with a spiral bevel gear set)

Output Configuration

Foot and flange mounted

Output shaft: solid with key, splined,
splined hollow, hollow with shrink disc

Input Configurations

Flanged axial piston hydraulic motors

Hydraulic orbit motors

IEC and Nema motor adaptors

Solid input shaft

Hydraulic Brake

Hydraulically released parking brake
on request

Electric Brake

500 series

Transit mixer drives

When you cannot afford any down time, then quality is the top priority.

Absolute dependability, low maintenance, compactness and price effectiveness are the key features of the renovated 500 series, the unparalleled line of drives for transit mixers. Eight models available for mixing capacity ranging from 1 to 12 m³.

Torque Range
3000 ... 75000 Nm

Truck mixer capacity
1 to 12 cubic meters

Gear Ratios
17 ... 161

Key Features

- Rotating housing flange
- Rugged design
- High torque capacity
- High load capacity
- Tilting output flange, evenly in all directions
- Mounting frame for water tank
- Water pump P.T.O.
- Speed sensor

Applicable hydraulic motors
Axial piston motors to SAE Standard orbit motors

600 series

Wheel drives

Benefit from the experience of the leading manufacturer.

Whether you are designing a wheeled agriculture or construction equipment, the 600 series will offer you the right choice for your vehicle.

A disengagement device to tow the vehicle in an emergency is optionally available.

Torque Range

1750 ... 60000 Nm

Gear Ratios

5.8 ... 153

Key Features

- Rotating housing flange with studs to fit wheels and drums
- Rugged design
- High torque capacity
- High load capacity
- Mechanical lifetime seals
- Compact design
- Optional mechanical gear disengagement on request

Applicable motors

- Cartridge axial piston hydraulic motors
- Flanged axial piston hydraulic motors
- Hydraulic orbit motors
- DC electric motors

Brake

Hydraulically released parking brake on request

600W2/3

Wheel drives

Gear shift final drive LO-HI Speed.

This gear shift final drive is specifically designed for wheeled and tracked machines featuring a significantly different travel/operating speed ratio. The product is the ideal solution for road paving machines, construction equipment, as well as agricultural and forestry machines.

Torque Range

15000 Nm - 40000 Nm

Gear Ratios

LO speed : 71 87 85 104 141,3
HI speed : 20.5 20.5 24.5 24.5 24.5

Key Features

- Dual gear ratio, hydraulic Lo-Hi speed shifting
- Rotating housing
- Rugged design
- High torque capacity
- High load capacity
- Mechanical lifetime seals
- Compact design
- Hydraulically operated multidisc clutches, allowing both speed shifting and brake

Applicable motors

Cartridge axial piston hydraulic motors

Brake

Hydraulically released multidisc type
Parking braking
Emergency braking

700C series

Travel drives

Leadership is never achieved without continuing efforts and consistent product development.

Any crawler machine, no matter how big or small, will find the suitable travel drive within the range of the 700C series.

All units available with a failsafe parking brake and for most cartridge type fixed or variable displacement hydraulic motors.

Torque Range
1000 ... 330000 Nm

Gear Ratios
5.3 ... 364

Key Features
Rotating housing
Rugged design
High torque capacity
High load capacity
Mechanical lifetime seals
Compact design

Applicable hydraulic motors
Cartridge axial piston motors
Flanged axial piston motors
Orbit motors

Brake
Hydraulically released parking brake
on request

700CK series

Track drive gearmotors

Integrated design will result into the best possible product combination.

Extreme compactness, lightweight, efficiency and smooth operation are the key features of the 700CK series track drives, powered by integrated axial piston hydraulic motors, developed in cooperation with KAYABA.

Available for machines in the 1.5 to 100 Ton class range.

Torque Range
1200 ... 200000 Nm

Machine weight
1.5 up 100 Ton

Gear Ratios
20 ... 120

Key Features
Rotating output flange with large PCD suitable for sprocket
Rugged design
High torque capacity
High load capacity
Mechanical lifetime seals
Compact design

Hydraulic motors
KAYABA hydraulic motors, fixed and dual displacement, complete with counterbalance valve.

Motor options
Pressure relief valves, shockless type
Anticavitation valve

Brake
Hydraulically released failsafe parking brake automatically operated by main pressure

700T series

Slew drives

Innovative solutions for slew drives.

The slew drives of the 700T series provide the safest and most effective solution to all slew drive applications.

The 700T units have long been established in the cranes, excavators and special equipment industries, and today are highly appreciated by all the major manufacturers.

Torque Range

1000 ... 80000 Nm

Gear Ratios

3.4 ... 2000

Key Features

- Flange mounted
- Output shaft: splined or with integral pinion
- Rugged construction
- High torque capacity
- Output shafts supported by heavy duty capacity bearings

Applicable motors

- Cartridge axial piston hydraulic motors
- Flanged axial piston hydraulic motors
- Hydraulic orbit motors
- IEC electric motors

Hydraulic motor options

- Pressure relief valve
- Overcenter valve

Hydraulic Brake

- Hydraulically released parking brake on request

Electric Brake

- DC and AC type

Module / number of teeth of pinion UPON REQUEST

700TK series

Slew drives

Slew drives for excavator duty.

The 700TK series is the compact and yet powerful package for the slew drive of excavators up to approx. 20 ton class.

The units are powered by integrated axial piston hydraulic motors, developed in cooperation with KAYABA and can be accommodated within the smallest space. Wide choice of drive pinions, standard or to customer specs.

Torque Range
750 ... 9000 Nm

Excavator weight
1.5 to 20 ton.

Gear Ratios
7 ... 40

Key Features
Flange mounted
Output shaft with integral pinion
Rugged construction
High torque capacity
Output shafts supported by heavy duty bearings
Compact design

Hydraulic motors
KAYABA hydraulic motor fixed displacement complete with shockless type pressure relief valve

Motor options
Anti swing-back valve

Brake
Hydraulically released failsafe parking brake
Brake retarder valve on request

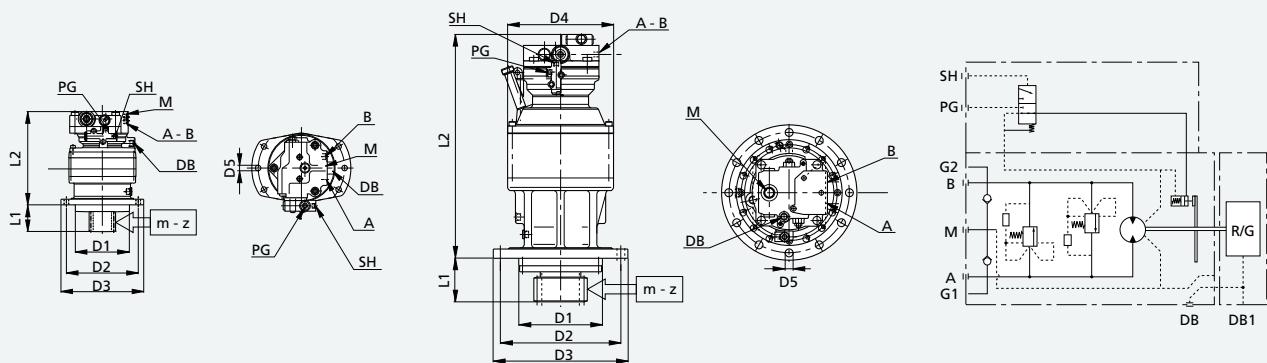

| Type | Torque [Nm] |
|-------------|-------------|
| 700 T1 K-27 | 750 |
| 701 T2 K-27 | 1200 |
| 703 T2 K-27 | 2000 |
| 705 T2 K-44 | 4000 |
| 706 T2 K-63 | 6000 |
| 706 T2 K-85 | 7000 |
| 707 T2 K-85 | 9000 |

Overall dimensions and technical data

| Type | Motor displacement | Max. pressure | Max. flow | Parking brake | | Range of ratio | Approx. weight of machine |
|---------------|--------------------|---------------|-----------|---------------|----|----------------|---------------------------|
| | cm | bar | l/min | Yes | No | 1: | ton |
| 700 T1 K - 27 | 27.4 | 210 | 18 | • | • | 8.2 | 1.5 - 2.5 |
| 701 T2 K - 27 | 27.4 | 210 | 30 | • | • | 13.7-20.8 | 3 - 4 |
| 703 T2 K - 27 | 27.4 | 250 | 50 | • | • | 14.8-35.6 | 5 - 6 |
| 705 T2 K - 44 | 44.1 | 280 | 80 | • | | 18-26.3 | 7 - 8 |
| 706 T2 K - 63 | 62.9 | 280 | 120 | • | | 15.3-33 | 9 - 10 |
| 706 T2 K - 85 | 87.3 | 320 | 160 | • | | 15.3-22.6 | 11 - 13 |
| 707 T2 K - 85 | 87.3 | 320 | 160 | • | | 14.7-22.3 | 15 - 18 |

800 series

Winch drives

Gear units for winch application.

The units of the 800 series are specifically designed for winch applications, and can be easily accommodated within the drum itself.

Available in various gear ratios, units feature heavy duty bearings and an optional failsafe parking or emergency multidisc brake.

Torque Range
5000 Nm ... 42000 Nm

Line rope range
35000 N to 170000 N

Gear Ratios
21 ... 108

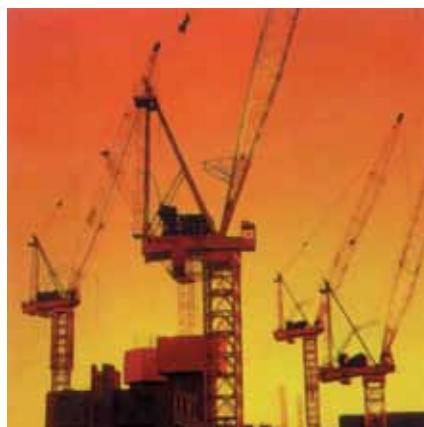

Applicable hydraulic motors
Flanged axial piston motors
Orbit motors

Brake
Hydraulically released parking brake
on request

| Type | Torque [Nm] |
|--------|-------------|
| 805 W2 | 5000 |

Our qualities

Sharing the value of our work with you.

The development of effective, tailored solutions for a wide range of applications is a fundamental aspect of our work.

We succeed in this because we co-operate closely with our customers, listen to their requests and work with them to improve our own performance.

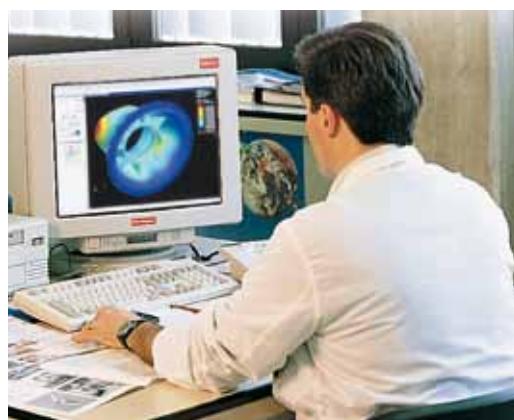

Bonfiglioli is determined to deliver the best service possible – before, during and after the sale of any of our products – by applying all our know-how, experience, technology, and advanced communication tools. Bonfiglioli works to the strictest standards of quality and safety, as certified by seven different internationally recognised institutes.

We believe in innovation, and back up this belief by dedicating 100 of our people and 5 activity centres to research and development, and by working hand in hand with some of the world's most prestigious universities.

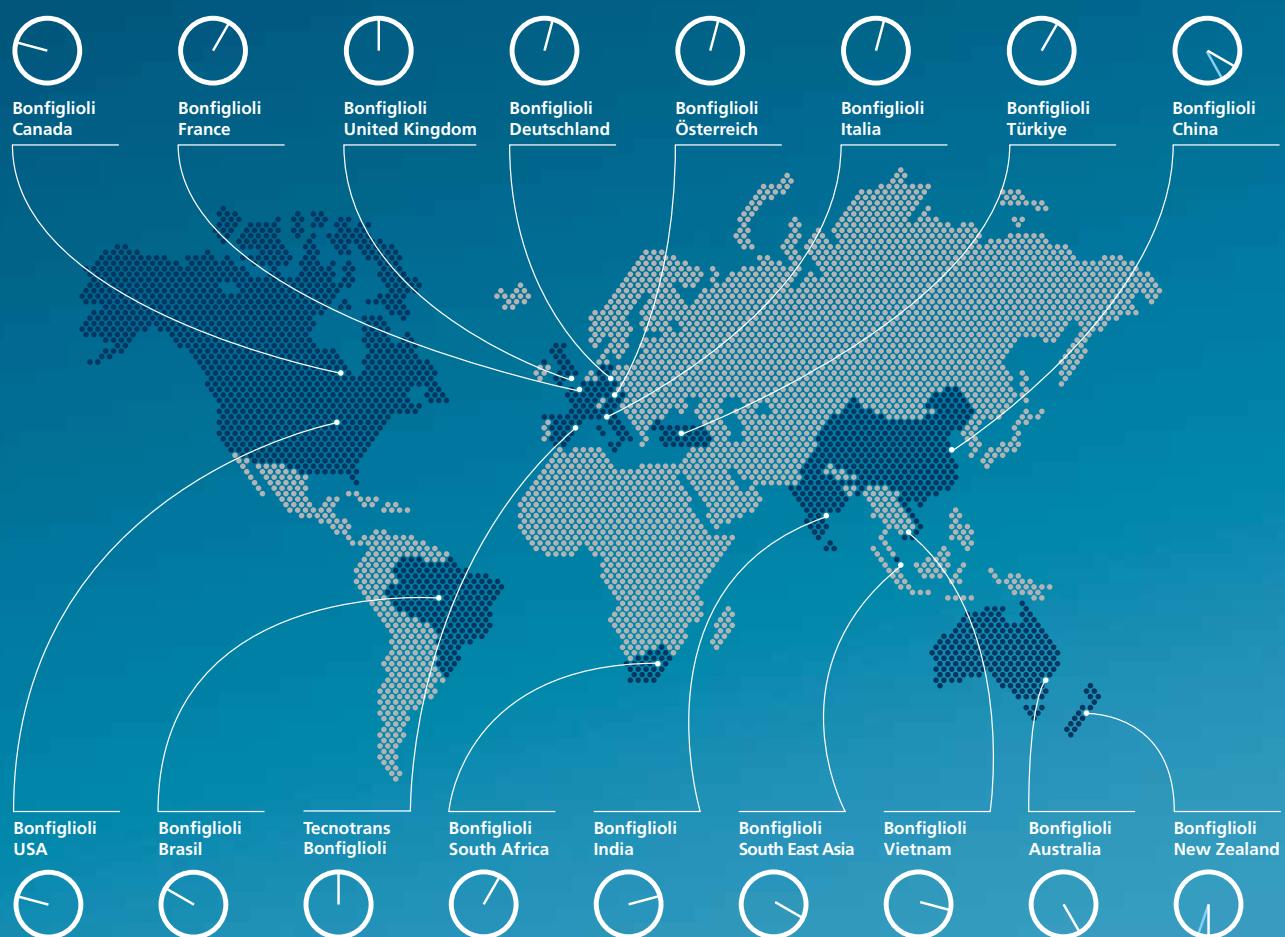

Our work increasingly brings us into contact with other nations and cultures, for which we have the greatest respect and with whom we share a vision of sustainable development based on renewable energy.

This bond of commitment allows us to be an authoritative and reliable global partner for the present and the future.
